

A CREW of five sea scouts of the First Trinidad Sea Scouts of St. Mary's College, have rowed from Port-of Spain to San Fernando and back in an open pirogue of local design.

"It was a feat undreamed of," according to the Rev. Father Tom Kennedy, of St. Mary's College, who said yes-

The 'undreamed of' feat

terday that their journey was tough, but morally rewarding.

The five-man crew, all students of the college, comprised Ronnie Herbert, Patrol Leader, Roger Beaubrun, Michael Boon, Kirk De Souza

and John Hale.

The voyage which started from W. M. Road, Cocorite, took eight hours, the boys rowing a strong and long stroke and assisted by fairly moderate seas.

On arriving in the south they were guests of the Rev. Brother De Lellis, of Presentation College, and his scouts.

Father Kennedy described their return journey as "tougher than which was encountered during their outward voyage." They faced a strong north-easterly breeze off Monkey Point, together with mist, rain and a running sea.

If they wanted to hold their own, he said, they could not let up in rowing which they did like experts.

Eleven hours after they set out from San Fernando, the boys pulled in at their base in Cocorite after 19 hours "pulling oars."
